

## Update Bulletin 2.10.2.4

Hello

Many updates of the past year have been requested by various users and have finally made their way to your runtime version. A brief summary of the highlights are shown below.

Menu .....	2
File New .....	2
File Open .....	2
Project Categories .....	3
Bid Amount .....	4
Bid Status .....	5
Filtering .....	5
Printing .....	5
File Save Copy To .....	6
Takeoff .....	6
Grid .....	6
Toolbar .....	9
ToDo .....	9
Add .....	10
Edit .....	10
Delete .....	10
Save as Image .....	10
Reports .....	10
Mouse .....	11

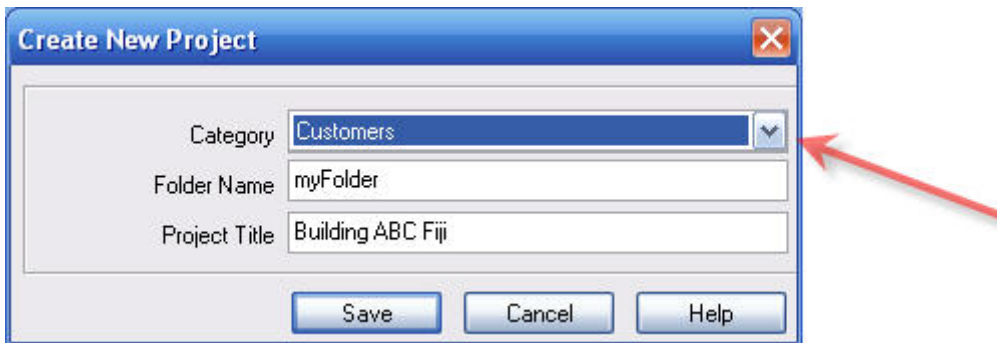

## Menu

### ***File|New***

Projects are now organized into *Categories*. File|New now needs to place projects into such containers. These categories have been predefined in File|Open and may be later renamed or reorganized. Default category is the last one used for File|New.

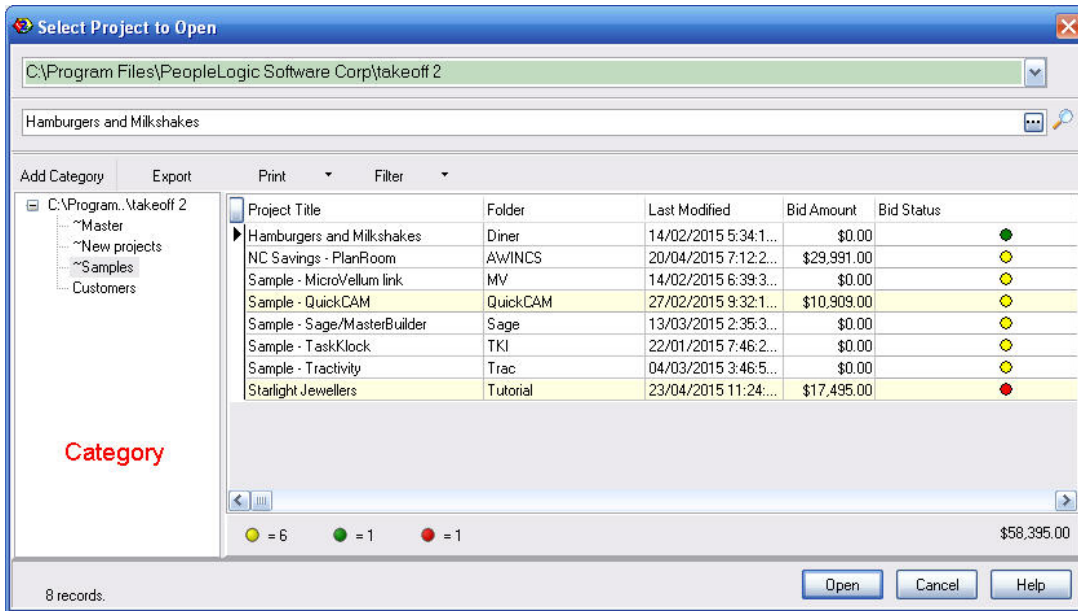

Also note that field Password has been removed and thus the existing fields have moved **down** one row to accommodate *Categories*.

### ***File|Open***

File|Open has had several new changes

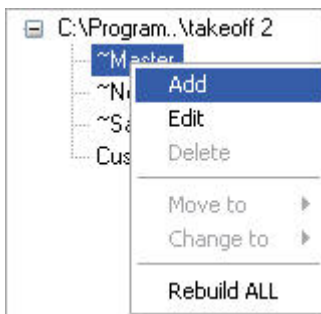

- ☐ Project Categories
- ☐ Bid Amount
- ☐ Bid Status
- ☐ Filtering
- ☐ Printing

## Project Categories

Categories will allow one to group similar types of projects together. This is useful as the project list grows to several hundred projects or even to keep numerous “Save As” copies together. All projects may still be viewed as a list by selecting the root(top most) category.

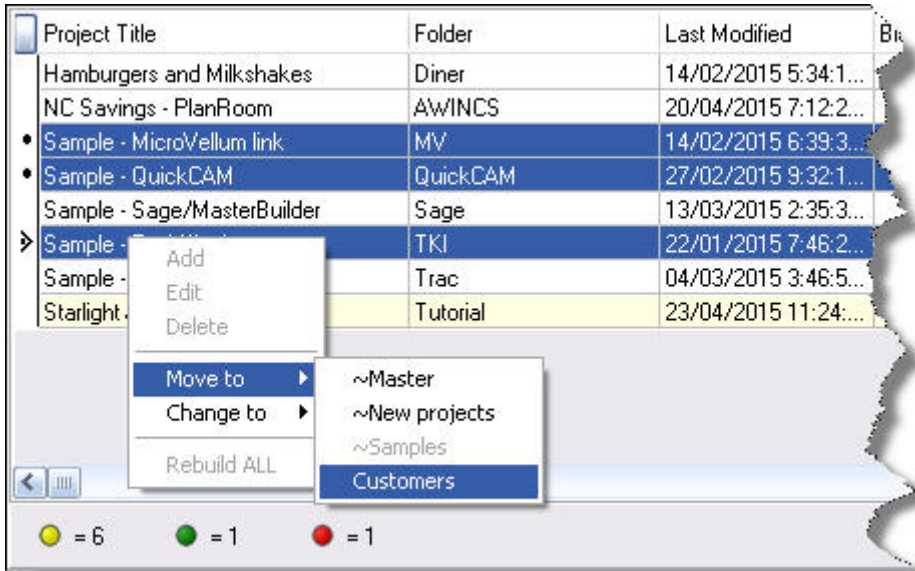

Make a new category by either using the **Add Category** button or right mouse click **Add**. Categories are limited to a single level in depth.

First time entry will create categories prefixed with “~” and attempts to place existing projects in those. Later one may add/rename or delete if empty. Projects

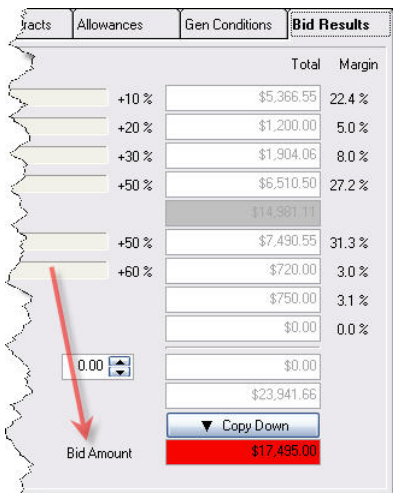

may be moved to other categories by selecting one or more project items from the grid and selecting **Move to**.

## Bid Amount

Bid amount is derived from the Project field found in Edit|Project BidResults. Initially these values are not transferred in order to save time during initial set-up but may later be updated using the **Rebuild ALL** function. Thereafter this value will be synchronized from the project. Total of Bid Amount shown in footer per category.

## Bid Status

Individual projects may be tracked as Won, Lost or Pending. Select one or more project items and choose **Change to**.

Project Title	Folder	Last Modified	Bid Amount	Bid Status
Hamburgers and Milkshakes	Diner	14/02/2015 5:34:1...	\$0.00	●
NC Savings Plan Room	AWINCS	20/04/2015 7:12:2...	\$29,991.00	●
Sample - Mic	MV	14/02/2015 6:39:3...	\$0.00	●
Sample - Qu	QuickCAM	27/02/2015 9:32:1...	\$10,909.00	●
Sample - Sa	Sage	13/03/2015 2:35:3...	\$0.00	●
Sample - Ta	TKI	22/01/2015 7:46:2...	\$0.00	●
Sample - Tra		04/03/2015 3:46:5...	\$0.00	●
Starlight Jew		23/04/2015 11:24:...	\$17,495.00	●

Count of each Bid Status shown in category footer.

## Filtering

Filter on a particular Bid Status condition. Note that category footer will adjust Bid amount total per filter.

Filter

- Pending
- Won
- Lost

Clear
☒ As colors

Clear – Removes filter.

As colors – Replaces color coding with text.

## Printing

Printing has been expanded to include new fields.

Print

- All projects
- by Bid Status
- by Category

## File/Save Copy To

For those who maintain various project data sources (places with takeoff projects) then a quick function for copy a project to one of those folders is to use **Save Copy To**. This could be used to archive a project or simply to make a local copy from the network.

Warning – If a project folder already exists in the target location then a warning will be issued if you wish to avert an overwrite.

## Takeoff

### Grid

Product details may now be seen without entering the edit dialog. A preview panel has been added to show a summary of all dimensions, option and costs. The width of the panel may be change using a splitter bar or it may be completely hidden. The remaining portion of the panel will show the same menu to restore.

## Toolbar

### ToDo

A new function for the Toolbar buttons is a Project ToDo list. This will keep a running list of items to remember which may be checked as Done later.

## Add

Click the **Add** button for a generic ToDo item or select a predefined icon. The last selected icon will show on the Tool button and may be used again without clicking the down arrow.

## Edit

Editing for Subject or Notes may be done in place or from the above panel.

## Delete

Select an item and then either click **Delete** button or DEL key. All items may be removed using **Clear ALL**.

## Save as Image

Click **Save as Image** to create a JPG file to your desktop.

## Reports

Report Loc\_cst2 now has a prompt for hiding costs.
